SUMMARY

Second-year CS student at UNBC with production engineering experience — a deployed analytics platform serving 50+ educators, a co-authored paper accepted to IDC '26, and social robotics research. Still building, still learning.

EDUCATION

University of Northern British Columbia Prince George, BC
Bachelor of Science in Computer Science GPA: 4.05/4.33 *Expected May 2028*

EXPERIENCE

Data Engineer Intern Oct 2023 – Jan 2024
Muzedata *Virginia, USA (Remote)*

- Maintained Python ETL pipelines processing real-time crypto market data with 99.9% accuracy across 50+ trading pairs
- Improved pipeline performance by 40% through query optimization, indexing, and automated data quality checks with anomaly detection

Student Research Developer — Team Lead Jan 2026 – Present
Centre for Teaching, Learning and Technology (CTLT), UNBC *Prince George, BC*

- Leading backend development of an AI-assisted Teaching Dossier platform for 50+ educators; running sprint planning, code reviews, and weekly stakeholder updates to faculty
- Built a 5-layer REST API (34 endpoints) in Python/FastAPI with JWT auth, Argon2, rate limiting, and RBAC; designed PostgreSQL schema with year-versioned educator profiles and 16+ Alembic migrations
- Integrated backend with an ASP.NET Core MVC frontend; deployed to Railway with automated CI migrations
- Co-first-authored *An Architecture of an AI-Assisted Teaching Dossier Development* — submitted to ICCE 2025

RESEARCH & VOLUNTEER

Robotics Research Volunteer Jan 2026 – Present
Human-Robot Interaction Lab, UNBC (Prof. Shruti Chandra) *Prince George, BC*

- Contributing to Blossom, an open-source social robot; writing servo calibration algorithms and building a real-time emotion recognition system using DeepFace/FER
- Co-first-authored *Saving Blossom: The Eco Spirit* — accepted to IDC '26 (R&D Challenge Finalist, Brighton, UK); prototyped a WebAR experience using A-Frame/8th Wall

Assistant Head of Media Dec 2024 – Present
RCCG Faith Chapel *Prince George, BC*

- Lead multimedia production and AV operations for weekly services; managing a Roland V-8HD switcher, Canon EOS C50 cinema camera, and live streaming pipeline

PROJECTS

Personal Portfolio | *React, Vite, Tailwind, Framer Motion, GSAP, amCharts* | adesoye.dev 2026

- Designed and built a production portfolio site with custom animations (GSAP, Framer Motion), smooth scroll (Lenis), interactive skills visualizer (amCharts), and an experience timeline

UNBC Course Advisor | *Python, React, FastAPI, ML, LLM* | *In Progress* 2026

- Building an AI-powered advising tool for UNBC students; ML-based course recommendation engine (collaborative filtering + prerequisite graph traversal) combined with an LLM conversation layer for natural language academic planning

COMMUNITY

Techvantage — Founder 2022 – 2023
Tech Outreach Initiative *Lagos, Nigeria*

- Founded a tech education initiative to bridge the digital divide; developed curriculum, led sessions, and trained 141 teenagers in foundational technology skills; raised \$2,200 CAD in funding

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript, TypeScript, C/C++, C#
Backend & Data: FastAPI, SQLAlchemy, PostgreSQL, Alembic, REST APIs, ETL Pipelines, pandas
Frontend: React, Vite, Tailwind CSS, Framer Motion, GSAP
Auth & Security: JWT, Argon2, OAuth, Role-Based Access Control
Tools: Git, Docker, Railway, Linux, Agile/Scrum, CI/CD, .NET

CERTIFICATIONS

Machine Learning Specialization — Andrew Ng, DeepLearning.AI / Stanford (Coursera) 2026
Supervised Learning, Advanced Algorithms, Unsupervised Learning & Recommender Systems

ACHIEVEMENTS

SAT: 1550/1600 — UTME: 342/400 — Top 0.00001% nationwide (Nigeria)
